STANLEY TRUMAN BROOKS, A BIBLIOGRAPHY OF HIS
WORK ON MOLLUSKS WITH A CATALOGUE OF HIS
MOLLUSCAN TAXA.

RICHARD I. JOHNSON

Stanley Truman Brooks was born on October 4, 1902 in Mound City, Kansas. He attended the University of Kansas where he received an A.B. degree in 1926. He did graduate work at the University of Pittsburgh, receiving a M. S. in 1927 and a Ph. D. in 1929. Between 1926 and 1928 he was an assistant in the Department of Invertebrate Zoology, then under the direction of Arnold E. Ortmann (Johnson, 1977). Most of his work was on North American land and fresh water mollusks. After Ortmann's death in 1927, Brooks was appointed curator of the department, a post he held until 1946. He then took a year's leave of absence to act as a scientific specialist for the United States Military Government in Germany. He never returned to the Museum, but for the rest of his life worked for a tobacco company. Brooks died of emphysema in 1960 (pers. comm., J. J. Parodiz).
